

## A corrigendum to 'Love wave at a layer medium bounded by irregular boundary surfaces'

S. S. Singh

<sup>1</sup> Department of Mathematics, Pachhunga University College, Mizoram University, Aizawl 796 001, India

In the research article "Love wave at a layer medium bounded by irregular boundary surfaces" in *Journal of Vibration and Control*, Vol. 17(5), 789-795, five figures, from Figure 2 to 6, need to be corrected, as follows:

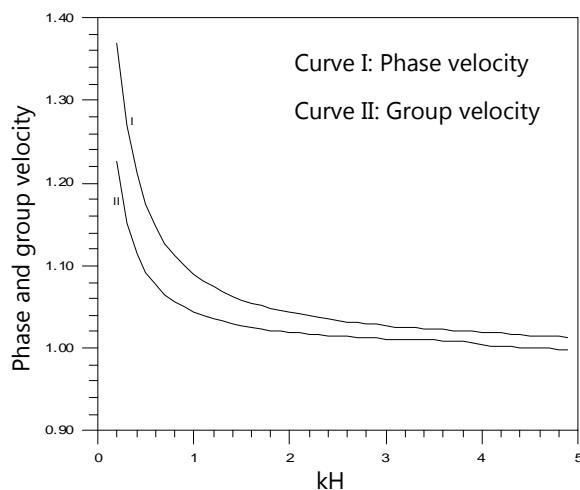

Figure 2. (Case i): Variation of phase velocity,  $\frac{c}{\beta_1}$  and group velocity,  $\frac{U}{\beta_1}$  with frequency of the Love wave.

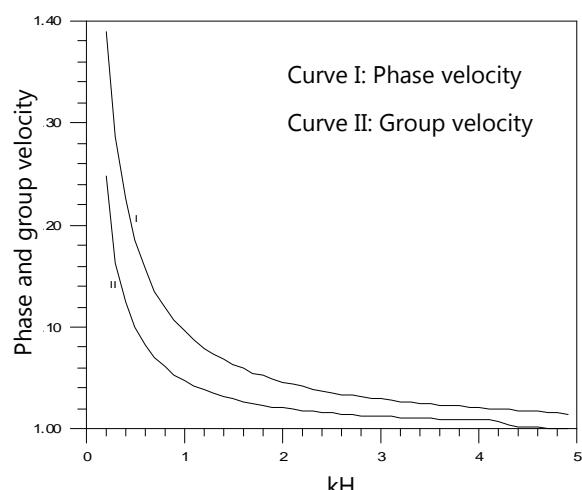

Figure 3. (Case ii): Variation of phase velocity,  $\frac{c}{\beta_1}$  and group velocity,  $\frac{U}{\beta_1}$  with frequency of the Love wave.

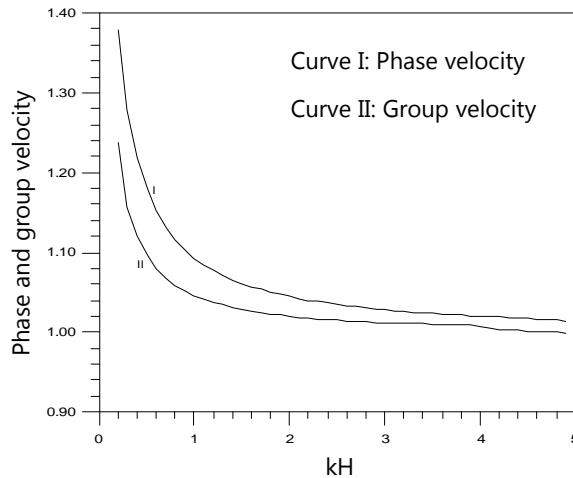

Figure 4. (Case iii): Variation of phase velocity,  $\frac{c}{\beta_1}$  and group velocity,  $\frac{U}{\beta_1}$  with frequency of the Love wave.

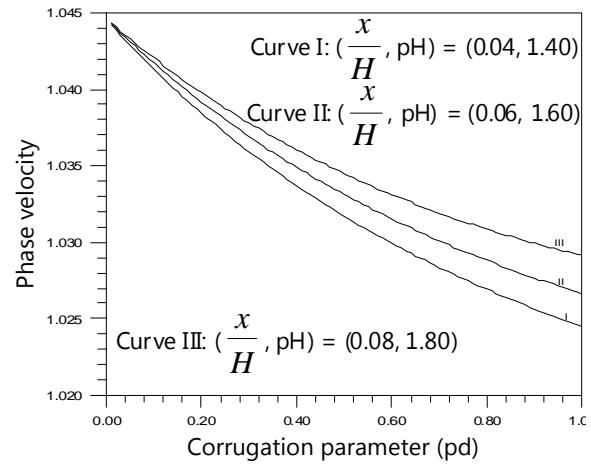

Figure 5. (Case i): Variation of phase velocity,  $\frac{c}{\beta_1}$  with corrugation parameter at different values of  $(\frac{x}{H}, \text{pH})$ .

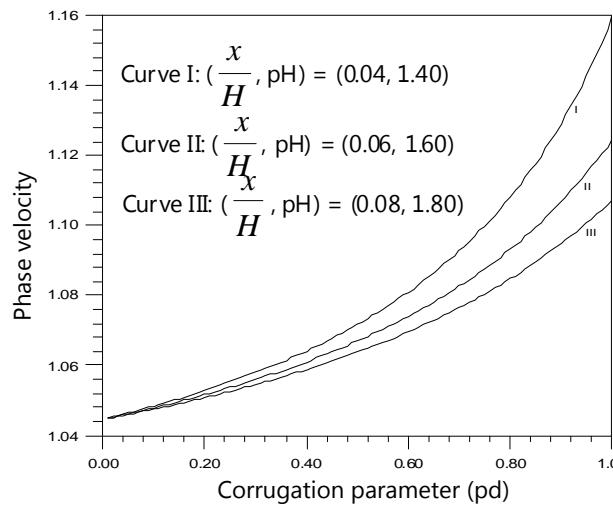

Figure 6. (Case ii): Variation of phase velocity,  $\frac{c}{\beta_1}$  with corrugation parameter at different values of  $(\frac{x}{H}, \text{pH})$ .
